

Antimicrobial cleansing

DECONTAMAN PRE SOFT

Antimicrobial washing lotion

- For presurgical, antimicrobial patient washing and decontamination
- Achieves all relevant effectiveness after 60 s
- Bactericidal, yeasticidal, active against enveloped viruses

Product description

DECONTAMAN PRE SOFT is an antimicrobial cleansing lotion to simultaneously clean and decontaminate skin and hands. DECONTAMAN PRE SOFT is suitable for preoperative body washing and hygienic hand washing in accordance with VAH and EN 1499 as well as for whole-body washing in cases of MRSA contamination or contamination with other multi-resistant Gram-negative bacteria (MRGN) such as *Acinetobacter baumannii* or vancomycin-resistant enterococci (VRE). Because of the skin-friendly pH and the conditioning properties, DECONTAMAN PRE SOFT has very good skin compatibility suitable for a nourishing cleansing lotion. Through the use of DECONTAMAN PRE SOFT, the chain of infection from hand to hand during medical and nursing procedures as well as transfer to food during meal preparation can be effectively broken. DECONTAMAN PRE SOFT can be used for skin cleansing prior to surgery or during longer periods of bed confinement. The product is free of phenols as well as alcohols and colorants.

Spectrum of activity and contact times			30 s	60 s
application recommendation for hygienic handwash*	EN 1499 / VAH	dirty conditions		•
activity against enveloped viruses	EN 14476	dirty conditions		•
bactericidal	EN 13727	dirty conditions	•	
yeasticidal (<i>C. albicans</i>)	EN 13624	dirty conditions		•

* including phase 2 step 1 and phase 2 step 2 tests (quantitative suspension tests and quantitative carrier tests)

Range of application

For hygienic handwashing in accordance with VAH/EN 1499. For preoperative and antimicrobial body washing in case of colonization with MRSA or other multidrug-resistant pathogens such as VRE, ESBLs, and other MRGNs. Particularly well suited for use prior to hospitalization as well. Suitable for use in food handling and processing.

Application

Hygienic hand washing in accordance with VAH/EN 1499:
Wet hands with 10 ml water and wash with 3 ml DECONTAMAN PRE SOFT for 60 seconds and then rinse thoroughly with clean water. Whole-body washing in cases of MRSA

contamination: Apply DECONTAMAN PRE SOFT either directly to damp skin or a moistened sponge or washcloth. Next, carefully cleanse the skin. After at least 60 seconds contact time, rinse the treated body parts thoroughly with clear water. This applies in particular to patients with particularly sensitive skin or immunocompromised patients. When showering, DECONTAMAN PRE SOFT should be used in the same way as normal body wash lotions.

Application notes

Do not use in case of known intolerance to chlorhexidine and on injured skin. Prevent penetration of the solution into the inner ear and the eyes.

DECONTAMAN PRE SOFT

Antimicrobial washing lotion

WHOLE-BODY WASHING

Patient washing and antimicrobial cleansing with ready-to-use washing wipes and gloves

Face

Cleanse face completely. Eyes must stay closed during the entire process. Use wipes carefully in the area around the eyes and avoid letting liquid run into eyes. When cleansing the ears be careful to keep liquid from running into ears.

Chest/stomach

Remove clothing from upper body and wash torso from the neck down to the belly button. Keep lower body warm.

Genital area

Perform intimate care.

Legs

Undress the lower body. Wash legs in an upward motion up to the thighs in the direction of the heart.

Back

Sit up or turn patient/resident to one side. From the outside with an inward motion wash neck and back. Dress patient/resident and turn them on their back.

Arms

Starting at the fingertips wash hands, arms and especially the armpits.

Buttocks

Turn patient/resident to one side and wash buttocks and anal region

Feet

Wash feet starting with the toes. Due to hygienic reasons, wash genital area and buttocks last.
